Silver Princess Cut
Tanzanite Stud Earrings

Rare violet-blue tanzanite — found only at the foot of Mount Kilimanjaro — set in radiant sterling silver. A gemstone a thousand times rarer than diamond.

THE STONE

Born of *Fire & Pressure*

Tanzanite is one of the rarest gemstones on Earth — found only in a narrow strip of land near Arusha, Tanzania. Formed over 585 million years in extraordinary tectonic heat, its trichroic nature allows it to display deep blue, violet, and burgundy simultaneously, shifting with every angle of light.

Our princess-cut Tanzanite studs are precisely faceted into the iconic square silhouette, maximising the stone's brilliance and that signature electric-violet depth. Set in polished sterling silver, the mounting cradles the gem with a clean modern bezel that lets the colour sing.

TRICHROISM EXPLAINED

Unlike most gemstones, tanzanite exhibits three distinct colours depending on the axis of observation — blue, violet, and red-brown. Cutters orient the princess table to maximise the coveted blue-violet window. Each earring is individually graded to ensure matched colour depth and saturation across the pair.

CRAFTSMANSHIP

Every Detail *Considered*

◇

Princess Cut Precision

The square princess cut delivers maximum sparkle per carat, its 90° corners and multi-facet crown igniting Tanzanite's trichroic magic with every glance.

✦

Sterling Silver Setting

925 sterling silver — high-polish finish — forms a luminous halo around each stone, complementing tanzanite's cool violet tones without competing.

⬡

Secure Butterfly Back

Push-back butterfly clasps keep the studs firmly in place all day, comfortable enough to forget you're wearing them.

✳

◈

✿

Hypoallergenic

The sterling silver posts are nickel-safe and suitable for sensitive ears, ensuring beauty without discomfort.

Matched Pair

Each pair is colour-graded and size-matched so that no earring outshines its twin — balanced elegance from every side.

Gift-Ready Packaging

Arrives in a signature jewellery box, ready to gift or treasure. A certificate of authenticity is included with each piece.

SPECIFICATIONS

ORIGIN	Tanzanite: Merelani Hills, Tanzania

CARE & KEEPING

Preserve the *Brilliance*

Tanzanite rates 6.5–7 on the Mohs scale — beautiful but best protected. Follow these steps to keep your earrings radiant for generations.

01

STORE SEPARATELY

Keep in a soft pouch or divided box away from harder stones like diamonds that can scratch the surface.

02

CLEAN GENTLY

Use mild soap and lukewarm water with a soft brush. Avoid ultrasonic cleaners and steam — tanzanite is heat-sensitive.

03

REMOVE BEFORE ACTIVITY

Take earrings off before swimming, exercising, or using chemical products like hairspray or perfume.

04

POLISH SILVER

Buff the sterling setting with a silver polishing cloth periodically to restore its mirror shine and prevent tarnish.

RENAISSANCE JEWEL

Wear *Something Rarer* Than Diamond

Each pair of Silver Princess Cut Tanzanite Stud Earrings is a piece of geological history — and an everyday luxury that never goes unnoticed.
